Dear ladies and gentlemen,

Belarus draughts federation have read the final list of the participants of the World cup event that will be held in Ufa in March. We were surprised that two Belarus female players (number 7 and 8 in the general world cup classification) are not presented on the list. It proves once again that Mr. Pawlicki, who formed the list, violated the selection rules for the World Ñup events:

"FMJD World Cup

Every player participating in an event included into the World Cup system gets World Cup points (WCP).

There is a general world cup classification and a women's world cup classification."

The selection proccess seems unclear to us, why some players who did not even play any World Cup tournament within the year are included on the list? Why the selection is made on the base of the tournaments which regulations do not mention any word about the World Cup.

The list of the participants of the World Cup Final, official FMJD tournament, formed by Mr. Pawlicki (President of the Polish draughts federation) onhis own initiative, does not correspond to sport ethics. Belarus draughts federation kindly request to review the list of the participants on the base of the World Cup classifictaion within next three days.

Iryna Pashkevich,

The President of the Belarus draughts federation.
